CANADIAN ROCKIES

Canadian National Railways

"Having wonderful time, wish you were here!" This is the greeting conveyed to you in the prose and pictures of this booklet. We kept a tight hand on the superlatives, but if a few adjectives slipped past us, it is only because you can't keep a good truth down. Come and see for yourself.

The New Jasper Park Lodge...

Jasper Park Lodge has been entertaining guests from all parts of the world for more than thirty years. The bungalow village on the well-groomed shore of Lac Beauvert with its gay summer vacation life has become as much a part of the Rockies as the swirling Athabaska and the Good Old Man dreaming his eternal dreams on the ridge across the valley. Last year, a new Central Building was opened, forty percent larger than the old one. Its refinements and comforts are enhanced by the best modern practice in hotel construction and furnishing, and it preserves the character of the mountain inn and the tradi-

tion of gracious hospitality which have brought Jasper its fame.

It is a fireproof steel and reinforced concrete structure, with all the facilities of the best city hotels, but it belongs to the mountains. Unlike the city hotel, it is designed on horizontal rather than perpendicular lines and it is tied in with its surroundings by its field-stone, its split cedar logs and the shingling of its roof with sturdy British Columbia cedar "shakes." The pitched roof, the peaked gables and the wide overhang of the eaves, suggest Tyrolian architecture, but the building is on a Canadian scale and its materials are Canadian.

The Outdoors Comes In...

Jasper Park Lodge provides shelter, comfort and even luxury, and yet it is not shut off from the great outdoors. Wide windows and a long skylight keep the way open and in the centre of the building a five-sided space has been left unroofed to admit the full unfiltered sun. This is the patio, and in the middle of it, surrounded by a pavement of slate, a pool of water reflects the sky. The fieldstone of the exterior walls pushes through

to bring the outdoors into the building in piers and partitions and the immense double fireplace that is the focal point of the lounge is built of stone. The stone comes in, and so do the trees. There is no place in the Lodge for plaster and where the walls are not stone or glass, split cedar logs cover the skeleton of concrete and steel; ceilings, even if they be of acoustic tile, are spanned by wooden beams. All the rooms in the main building are filled throughout the season with green plants and living flowers changed every week.

The main dining room, with accommodation for 550 guests at one sitting, is 61 feet wide by 175 feet long, but the architects, by sloping the high ceiling and judiciously breaking the

long line of windows with stone piers and providing, in addition to the indirect lighting, chandeliers of wrought iron and brass, have brought the scale into more intimate proportions. Owing to a decline in the ground level, the floor is considerably above the grade, which gives a splendid view across the lake. The wall on this side and in the west gable is glass — glass with a blueish tinge that absorbs heat and reduces sun glare; the wide overhang of the roof also helps keep the sun out of the diners' eyes.

The food served in this beautiful dining room is of the highest quality, the appointments are gleaming and immaculate and the staff courteous, skilled and prompt.

Space and Comfort...

The focus of the large but comfortable lounge is the immense double stone fireplace.

One thing people like about Jasper is the width of the Athabaska Valley. No matter which way you turn, you see mountains, of course — the hard outline of glittering Pyramid, the mellow slopes of Signal and The Whistlers, the radiance of Edith Cavell's crown of snow and ice, the serene profile of the slumbering Old Man — but they do not press in and overwhelm. The same spaciousness is carried into the Lodge and when you go into the lounge you do not feel shut in.

You don't feel lost, either, although the room is 90 feet wide by 116 feet long. Guests who gather together for conversation or a game of cards, or who wish to read or write letters, do not like to feel themselves exposed in the open, and the furnishings are designed for their comfort. The lounge is divided by the enormous double fireplace and the furniture is grouped in blocks of color in such a way as to give the impression of smaller, separate clubrooms.

The ballroom (above), reached through the lounge, is designed for meetings and movies as well as dancing, and, by the use of its folding doors, it may be extended for large conventions. Doors open on the patio, which leads to the snack bar, also accessible from outside the building. On the lower level, a large and cheerful recreation room (below) provides facilities for all sorts of indoor games. The tavern is reached from outside.

The Lodge is well supplied with shops where you may get everything from the latest magazines to handsome souvenirs of Canada.

Old friends often meet at the registration desk, because guests come back to Jasper year after year.

Honored Guests...

The moment you check in at the desk and get the key to your cabin, you realize, from the cordiality of your welcome as well as the wine of the mountain air in your lungs, that you have started off on the right foot for a vacation you will never forget. Indeed, your sense of being an honored guest begins when you make your first contact with the Canadian National Railways, when you discuss reservations with the CNR representative in your home city, wherever it may be.

Jasper is easily reached from anywhere in Canada and the United States. All you have to do is get to the main line of our great transcontinental railway — the largest in North America. It runs through every province in the Dominion and operates in 12 states of the Union.

When you write home, you'll need a good stack of adjectives.

Your House and Garden ...

The guest rooms in Jasper Park Lodge are in separate cabins, each with its front door on the tree-lined avenue and its gardens of vivid green grass and gorgeous flowers.

The cabins are of various sizes and many are rented for the private enjoyment of single families or groups of friends. They have good beds, hot water, telephones . . . all the amenities.

Top Flight Golf...

The golf course at Jasper Park Lodge, designed by one of the most celebrated golf architects of North America, hewn out of the mountains and brought to perfection by the grooming of a quarter of a century, is rightly known as one of the great courses of the world.

It is a championship course — 6,700 yards, par 71 — and Golf Week, culminating in the Totem Pole Tournament, attracts high calibre players, both men and women,

every year. The hazards include the beautiful mountain terrain, which makes it hard to keep your eye on the ball, and sometimes a bear unconcernedly ambling over the grass, but they do not include strenuous climbs.

The course is laid out on the British principle, with the ninth hole farthest away from the clubhouse, but an additional three holes permit a nine-hole game, taking you back to the clubhouse with no cutting in.

The 21 holes are well trapped and Lac Beauvert provides sporty water hazards.

Each hole is provided with a chart for players who want to know where they are going. Right: the Totem Pole Trophy.

Fun for Fishermen...

Stream fishing doesn't come any better than here, where the Maligne River enters the Athabaska.

Only one angler can win the gold button for catching the season's heaviest trout and there's only one silver button for the second, but any member of the Maligne River Anglers Club who lands a fish of a pound or more is entitled to the bronze emblem. The fun's in the fishing, anyway, and, lake or stream, there's lots of sporty fishing in Jasper.

A few miles from the Lodge, on the lower Maligne River, the Government Fish Hatchery breeds the trout with which the mountain

waters are stocked. Hundreds of thousands of eggs are hatched every year and developed into fingerlings which are then put into the Park's lakes and streams. The Rainbows come biggest in Amethyst Lake and the Astoria River in the Tonquin Valley but there is hardly a stretch of water anywhere in Jasper that won't prove rewarding to a well-cast fly or lure. The Government charges only one dollar for a fishing license which is good for two months.

All this, and good fishing, too!

This prize is a 10½ pound Rainbow taken from Lake Dorothy.

The Government Fish Hatchery at Jasper, from which lakes and streams are stocked, fascinates thousands of visitors.

Automobile Trips...

Once the signpost directing the early explorers and the fur traders through the Rockies to the Pacific, Mount Edith Cavell now stands as the symbol of all that is impressive and beautiful in Jasper. It is almost the first thing you see when you step from your train and it remains in view at the Lodge, a superb picture across the lake.

Thrilling motor car switchbacks, revealing panoramas more and more wonderful, carry

you over 20 miles and up 2,000 feet to the moraine of the Angel Glacier on the mountain's slope. This trip, which is one of the most popular sightseeing drives in Jasper, takes about three hours and guests may enjoy refreshments at the tea house near the foot of the living ice.

There are many other fine motor trips in Jasper and wherever you go, there is something wonderful to see and the drivers are skilled and careful.

In half an hour by motor from the Lodge you can reach the foot of the Glacier of the Angel on Mount Edith Cavell.

Mount Edith Cavell, one of the loveliest of Canada's lofty mountain peaks, presides over Jasper in regal majesty.

The Queen Elizabeth Ranges surrounding magnificent Maligne Lake.

Fit for a Queen...

Canada's Coronation gift to her Queen was a chain of mountains. The Queen Elizabeth Ranges and the lake they encircle together make up one of the most magnificent views in the Canadian Rockies and indeed, as many travellers declare, in the world. Maligne Lake and its ice-crowned skyscrapers, like the fabulous palaces of the gods, are reached by automobile and motor boat, or

by horseback over the Sky Line Trail, if you like riding. Many guests stay over-night at the chalet to explore the 17-mile lake or fish for trout. The massive peaks, ranging in altitude from 10,000 to 11,380 feet, are respected by alpinists but most visitors find their beauty breath-taking enough from the lake level.

Every mile unfolds new wonders as the boat comes closer and closer to the superb summits surrounding the lake.

Scene along the Columbia Ice Field Highway with Mount Athabaska and Glacier in background.

The Roof of the Rockies...

The greatest of all Jasper's scenic drives takes you 75 miles along the Jasper-Banff Highway to the Columbia Icefield.

The largest and most impressive body of ice outside the Arctic Circle, it covers an area of more than 110 square miles. Its loftiest summits tower 11,000 and 12,000 feet above sea level and out of their maze of glaciers spring streams that swell into mighty rivers carrying fertility to a vast terrain and pouring finally into three oceans —

the Pacific, the Atlantic and the Arctic.

Roof of the Rockies . . . Mother of Rivers . . . Wonder of the World . . . none of the titles and adjectives bestowed on the Columbia Icefield begins to do justice to its magnificence.

You will find it hard to turn your back on it, but you may prolong your pleasure by stopping over at the chalet at the foot of Athabaska Glacier and add to your thrills by climbing the icefield on horseback, on foot or by caterpillared snowmobile.

Glacier-fed rivers and snow-capped peaks hold your attention along the Columbia Ice Field drive.

Athabaska Falls, with Mount Kerkeslin in background, is a sight you'll always remember.

Snowmobiles will take you on an exciting ride high up on the glacier.

Sometimes the mountains are only a background.

Lac Beauvert is a favorite place for snapshots.

And the animals are photogenic.

To Spend, Yet Keep ...

How quickly are they spent, the golden hours! Longing to hoard them against the winter days to come, we wonder how we can spend this gold and keep it. The best way seems to be the photograph. Bring your camera to Jasper — movie or still, precious lens with all the gadgets, or simple box — black and white or color — stop the joyous moment in its tracks, take Jasper home on film with you and live it all over again.

The terrace is a good place to pose your friends.

Riding High...

You can see a lot of Jasper by automobile but if you really want to know the mountains you'll travel on legs as well as wheels. They don't have to be your own legs. Of course, there's wonderful hiking, along quiet pathways carpeted with fragrant pine needles, with maybe a pack on your back and chalet shelter at the end of the day, or just a short stroll of a mile or two, but you can cover more ground and spend less energy if you travel on four legs.

It doesn't matter if you've never been on a

horse before. The ponies are tolerant and the guides will see that you get one geared to your experience. You can start out easy on short rides and when you're well seasoned to the saddle, you may go on longer trips—to one or other of the enchanting lakes, Pyramid, Wabasso or Caledonia; or, stepping up your ambition, tackle the great four-day trip (part way by motor car and boat) to Maligne Lake and back over the Sky Line Trail. When you do that, you'll be riding high. You'll really know the Rockies in all their splendor.

The Tonquin Valley, unforgettable to sightseer and fisherman alike.

Jasper National Park, in the northern Canadian Rockies, is one of America's greatest playgrounds. Its heart is Jasper Park Lodge, the famous resort hotel operated by the Canadian National Railways, shown here in an aerial photograph. Seen in the picture are part of the 15th hole of the golf course (foreground); a corner of Lac Beauvert; the open air heated swimming pool; the Central Building; a few of the bungalows; the motor road to Jasper Town; the Athabaska River (left) and, in the background, a section of the Athabaska Valley and the Colin Range. The main line of the Canadian National Railways follows the left bank of the river.

Jasper has one of the world's really great Golf Courses!

You may have to go out and look for the sheep . . . But the bears are familiar fellows who come to you. However, take care not to let them become too familiar.

Wild Life...

The original inhabitants still have the run of the place, for Jasper National Park is a wild animal sanctuary and no shooting is allowed except with the camera. The bighorn sheep and the white mountain goat keep their distance, though they come close enough to be looked at when you go to the right places; so do the elk, the caribou and the lordly moose; the beavers go about their dam-building in spite of kibitzers; and the inquisitive deer and the neighborly bears come right into the Lodge gardens to be admired and photographed.

Never be caught without your camera if you don't want to miss shots like this.

Mount Robson, Monarch of the Rockies,
altitude 12,972 feet.

Tallest of Them All...

Just outside Jasper National Park to the west, in British Columbia, two hours from Jasper by train, towers the loftiest and grandest peak in the Canadian Rockies — Mount Robson. Armored in eternal ice and snow, it is a glorious sight from Canadian National trains on the way to either Vancouver or Prince Rupert or going east from the Pacific.

But it is even more majestic from close range and a lot of travellers stop over at Mount Robson to ride on horseback through the Valley of a Thousand Falls, past roaring

Emperor Falls and around the massive mountain to Berg Lake on the north side. Here they are thrilled by the spectacle of three immense glaciers clinging to Robson's flanks and blocks of ice shattering the shining mirror of the lake and turning into icebergs.

Some of the visitors go as hunters, for Mount Robson Provincial Park is the centre of topnotch big game hunting. Accommodations are good and the guides, who know the territory as well as the palms of their hands, see that you get sport at its best.

SIGHTSEEING MOTOR DRIVES

NOTE:—Starting point of all sightseeing drives—Main Entrance, Jasper Park Lodge.

The Station Agent at Jasper will make arrangements for railway patrons, who are not guests of the Lodge, to be taken from the station in Jasper Park Lodge motor equipment on any of the scheduled drives, Nos. 1 to 8 inclusive. Regular rates will apply.

Departure hours and schedules for these drives have been carefully planned to permit visitors to view without haste the scenic wonders of the Park.

No. 1: General Drive—Thirty-five miles return. Motors leave the Lodge at 9:15 a.m. and 2:30 p.m. **Time, approximately 3 hrs. Bus fare per person, \$4.00.** This drive embraces a wide variety of valley, lake, canyon and mountain scenery and includes a visit to the Fish Hatchery and a side trip to see the bears. The route, after following the Athabaska River, skirts Lakes Annette and Edith before gradually ascending the roadway to Maligne Canyon. From this vantage point the tourist stands in awe before the snow-capped grandeur of lordly mountains and the mighty sweep of the Athabaska Valley, which loses itself in endless vistas of alpine beauty. Maligne Canyon, a tremendous gorge descending to a depth of 188 feet, and remarkable for its potholes, is a never-ending source of wonder and amazement. On the return journey the Athabaska River is followed to its junction with the Maligne River, where a stop is made to view the Government Fish Hatchery; from here the route continues over the Athabaska River bridge to join the Main Highway to Jasper, where a glimpse is obtained of "the Raven," one of the largest totem poles in existence. Continuing along to the foot of Pyramid Mountain and passing en route Lakes Patricia and Pyramid, the drive again runs through Jasper before terminating at the Lodge.

No. 2: Glacier of the Angel (Mount Edith Cavell)—Forty-four miles return. Motors leave the Lodge at 9:15 a.m. and 2:30 p.m. **Time, approximately 3 hours. Bus fare per person, \$4.00.** Offering excellent motoring, this drive by a course of wide-sweeping switchbacks reaches an altitude of nearly 2,000 feet above the floor of the valley and gives the tourist an ever-changing series of strikingly beautiful panoramas. The highway, terminating at the foot of the famous glacier, affords an excellent view of this vast field of living ice. *The highest point reached on this drive is 6,300 feet above sea level.* Light lunches and refreshments can be obtained at the Tea Room near the foot of the Glacier.

No. 3: Miette Hot Springs and Fiddle River Canyon—Eighty miles return. Motors leave the Lodge at 8:45 a.m. **Time, approximately 4 hours. Bus fare per person, \$6.00.** The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls. A short stop is made to view this unique waterfall and then the trip continues along the rim of the Fiddle River Canyon for another eleven miles before finally reaching the famous Miette Hot Springs. At this point, hot sulphur spring water, varying in temperature from 79 to 128 degrees F., comes boiling out of the mountain side. Motors will remain long enough to permit bathing in the pool. *The highest point on this drive is 4,510 feet above sea level.*

The Miette Hot Springs consist of three main springs, which issue from the rocks along the banks of Sulphur Creek. The springs, non-volcanic in nature, owe their heat to chemical action, caused by surface water coming in contact with certain minerals in the limestone rock formation. The combined flow of the three springs reaches a total of approximately 170,000 gallons every 24 hours.

The Swimming Pool and the Steam Baths at Miette Hot Springs are operated by the National Parks Department.

The rates are:

Swimming Pool—when bathing suit and towel are supplied by the Department: adults, 35c.; children, 25c. When bathing suit and towel are supplied by bather: adults, 25c.; children, 15c. Steam and Plunge Baths—50c. per person.

No. 4: Columbia Icefield (Jasper-Banff Highway)—One hundred and fifty miles return. Motors leave the Lodge at 9:00 a.m. **Time, approximately 7 hours. Bus fare per person, \$10.00. Minimum, 5 persons.** The drive follows the route of the Mount Edith Cavell Drive to a point beyond the crossing of the Astoria River, whence it continues along the valley of the Athabaska. From here the route penetrates through the very heart of the Canadian Rockies to the largest and most impressive icefield outside the Arctic Circle. With an estimated area of 110 square miles, the average elevation of this amazing icefield is between 9,000 and 10,000 feet, which, because the waters of its melting glaciers travel thousands of miles to three oceans, the Atlantic, the Pacific and the Arctic, has been beautifully named "Mother of Rivers." **Unquestionably, this is America's Greatest Scenic Drive.** *The highest point reached on this drive is 7,000 feet above sea level.*

This trip is also operated as an afternoon and evening drive, leaving the Lodge at 2:30 p.m. It is arranged for those who wish to see the wild animals which in the evening twilight come down from the mountains and forests to the rivers and streams along the route of this great highway.

No. 5: Geikie Twilight Drive—25 miles return. Motors leave the Lodge at 7:00 p.m. **Time, approximately 2 hours. Bus fare per person, \$3.00.** This drive, sometimes referred to as the Sleepy Hollow Drive, passes through the town of Jasper and proceeds along a beautiful road winding through a quiet valley with here and there a contrasting noisy waterfall tumbling down to join the Miette River; the route continues west following the Miette River along the base of Whistlers Mountain to Geikie.

No. 6: Maligne Canyon—Medicine Lake (auto-motor boat)—40 miles return. Motors leave the Lodge at 1:30 p.m. **Time, approximately 4½ hours. Cost per person, \$6.50.** The route is over the road to Maligne Canyon and beyond for fourteen miles to the lower end of Medicine Lake; at this point passengers are taken on a scenic motor-boat cruise across the lake. A unique feature of this lake is that, although thirty feet deep during the summer, it completely disappears through invisible outlets in the fall of the year.

No. 7: Maligne Canyon—Twelve miles return. Motors leave the Lodge at 10:00 a.m. and 2:30 p.m. **Time, approximately 1½ hours. Bus fare per person, \$2.00.** This canyon, into which the Maligne River plunges through a gorge 188 feet deep, ranks among the most extraordinary in the Canadian Rockies. The route lies over a gradually ascending roadway from which the tourist obtains magnificent views of lordly mountains and charming vistas of the Athabaska Valley. The Fish Hatchery on the lower Maligne River beyond Lake Edith is also of interest.

No. 8: Punch Bowl Falls—"A Twilight Drive"—Sixty miles return. Motors leave the Lodge at 7:00 p.m. Time, approximately 3 hours. Cost per person, \$3.50. The route, after skirting the shore of Lake Mildred, follows the Athabaska River, which it crosses to join the Inter-Provincial Highway, whence it extends for miles down the Athabaska Valley to Jasper Lake and beyond to Punch Bowl Falls and Valley.

THE MALIGNE DISTRICT

In advertising the following services the Canadian National Railways act only in the capacity of Agents; therefore, while highly recommending the Outfitters to guests, it does not assume any legal responsibility whatsoever relative to the services provided.

The Maligne district is one of the most interesting in the Park, not only on account of its remarkable canyon as referred to on Page 28, but because of its two beautiful lakes—Medicine and Maligne. The drive to the latter, with boat trip to the head of the lake, provides unforgettable glimpses of the beauty and grandeur of a great mountain world.

Medicine Lake, about 15 miles distant from Jasper Park Lodge and reached by automobile, is five miles long and a little over half a mile wide. Leaving Medicine Lake, the road follows the Maligne River, now a tumultuous greenish-white stream of considerable size. Almost ten miles south one catches the first exciting glimpse of the shining tops of the snow peaks surrounding Maligne Lake. On the latter, near the outlet to the river, stands Maligne Lake Chalet. Before the Chalet and extending in a southeasterly direction for seventeen miles, with a breadth varying from two hundred yards to two miles and a shore line of some fifty miles, lies Maligne Lake, the largest glacial-fed body of water in the Canadian Rockies.

The vista from the lower end of Maligne Lake makes up a charming alpine picture, but one must take the boat trip beyond the Narrows, nine miles from the chalet, where the upper part of the lake is revealed, to realize the full glory of this masterpiece, and to understand the praise it has drawn from all mountain lovers who have been fortunate enough to see it.

Beginning with Mount Samson (a jagged peak of ten thousand feet facing the Chalet on the left), the altitude of the peaks forming the Maligne group (Mounts Charlton, Unwin, Warren, Mary Vaux and Maligne) gradually increases until, in Mount Brazeau, it reaches eleven thousand, three hundred and eighty feet.

The mountains rise precipitously from the lake and are heavily laden with snow and ice. At the southwest end of the lake, farthest from the Chalet, lies a snowfield of considerable size and leading in a southerly direction towards the Brazeau River district, along the western base of Mount Brazeau, is a high, broad snow pass affording easy access to this intensely interesting neighbourhood. The mountains in the Maligne Lake district are admirably suited to both ice and rock climbing and many comparatively easy climbs can be successfully undertaken by the amateur.

The mountains, meadows and flowers of the alplands will prove of great interest to botanist and naturalist alike. Sheep, goats, caribou, moose and deer frequent these pastures. The Opal Hills, facing the Chalet on the east, are the home of the sheep and the goat, while the mountain sides overlooking the lake, particularly those about the southeast, are used extensively by the mountain goat as a summer pasture.

MALIGNE RIVER ANGLERS' CLUB

Anglers visiting the Maligne area will have an opportunity, without additional expense, to qualify for membership in the Maligne River Anglers' Club, particulars of which can be obtained at "Fred Brewster's Rocky Mountain Camps," Jasper Park Lodge. An angler who catches a speckled brook trout weighing not less than a pound qualifies for membership in the Maligne River Anglers' Club and receives a bronze lapel button. The angler who catches the heaviest speckled brook trout receives a gold lapel button, emblematic of the championship of the Maligne River Anglers' Club. The angler taking the second heaviest trout receives a silver button.

What to do at Maligne Lake

Ride or hike to Maligne Pass, to the top of the Opal Hills or to the haunt of the caribou at the summit of Bald Mountain.

Take canoe, rowboat or outboard motor boat trips on the lake, also a scenic motor-boat trip to the upper end of Maligne Lake, 34 miles return.

Fish for speckled trout in Maligne Lake, Mona Lake and Maligne River.

Arrangements can be made for summer skiing by applying to Fred Brewster's Rocky Mountain Camps Limited.

TONQUIN VALLEY

Among the many beauty spots in the Canadian Rockies, none is more outstanding than the Tonquin Valley and that splendid range of mountains which rises along the spiral ridge of the continent from Mount Fraser northward, on the western boundary of Jasper National Park.

Tonquin Valley lies verdant, wide and open, high up on the shoulders of the great ridge that forms the Divide at an elevation of 6,450 feet. Brilliant masses of wild flowers, the vivid greens of the coarse grass and the dark velvety hue of pines, gives the valley a smiling loveliness which contrasts with and softens the unrelieved majesty of the black and jagged peaks. On every hand, too, are signs of wild life. Its waters are famous for splendid Rainbow trout fishing.

Near the southern end of the valley is a beautiful sheet of water three miles long and about a mile wide, divided by a rocky promontory into two parts, forming what are known as the Amethyst Lakes. Their waters are pale in color with amethyst shadows running from the sides, a color probably due to vegetation, accentuated when seen from a height which has given them their names.

Forming a great arc from southwest to northwest, the Ramparts stretch along the western side of the valley without a sign of vegetation to relieve their rugged majesty. At all hours the Ramparts are impressive, but they are most splendid at sundown.

This beautiful valley is second to none in its interest to the angler, the alpinist and the photographer.

The main trail to the Tonquin Valley is in from View Point, the latter being sixteen miles from Jasper on the Cavell motor road. The route is along the northern slopes of Mount Sorrow to Verdant Creek. Crossing the latter, it traverses the base of the northeast corner of Throne Mountain and, at a distance of some four miles from the highway, crosses the Astoria River. The trail then follows the northwestern bank of the Astoria for two and one-half miles before swinging to the right. After a very short climb to open country, it crosses the alplands to the Amethyst Lakes, a distance of three and one-half miles.

Transportation Schedule for Tonquin Valley Operates Every Third Day in July and August

Leave Jasper Park Lodge by motor car and drive to View Point at the lower end of Cavell Lake, where guides, saddle-horses and pack-horses are stationed to complete the trip. Commencing July 1st, snow conditions permitting, ingoing trips leave Jasper Park Lodge 9:30 a.m. first day and arrive Tonquin Valley Camp at 4:00 p.m. same day; leave Tonquin Valley Camp 9:30 a.m. third day and arrive Jasper Park Lodge at 4:00 p.m., e.g., leave Jasper Park Lodge July 1st, 4th, 7th, etc., and leave Tonquin Valley Camp July 3rd, 6th, 9th, etc. Luncheon is taken on the trail. Cost, for transportation by motor car and saddle-horse also luncheons on the trail: \$42.00 for the return trip. **Charges at Tonquin Valley Camp are Extra.**

Travelling becomes "Travel Living"

When you go
Canadian National

Berths completely disappear and two comfortable folding arm chairs take their place for daytime use in the new bedrooms. Adjoining rooms may be opened *en suite* when passengers wish.

The drawing rooms are "tops" in roomy comfort. Each contains a convertible sofa, a folding bed, an upper berth and two folding arm chairs—a living room by day, a bedroom by night.

**CANADIAN
NATIONAL
RAILWAYS**

That is the best way to describe the revolution in passenger transportation that is taking place across the Canadian National System in 1954.

We are placing more than 350 new passenger cars in service—sleeping cars, coaches, parlor cars, diners and new dinettes. They are being assigned to all our principal trains, to provide C.N.R. passengers with new standards of comfort wherever they go on our lines.

This big fleet of smart, modern passenger equipment offers you features like these:

Roller bearings and special springing for the smoothest train ride money can buy.

Rich, colorful upholstery and modern decor, providing pleasant surroundings to match the physical comfort.

Every car equipped with the newest developments in the field of passenger car engineering and design.

You'll enjoy travelling more than ever before, when you go
